“ **REGENT has successfully harnessed the benefits of technology to seamlessly support teaching and learning...** ”

n behalf of REGENT BUSINESS SCHOOL, it is my pleasure to extend a warm welcome to you.

The programmes in this brochure are accredited by the Council on Higher Education (CHE), and they meet the requirements of other regulatory authorities in South Africa. This brochure will provide you with all the information you require to make your final decision regarding which programme to choose and study.

Although the programmes in this brochure meet the requirements of the regulators, REGENT seeks to develop and expand the potential of graduates by providing them with exceptional teaching and cutting-edge learning experience, thereby preparing them for the workplace of today and the future, as the future of work changes. Special spaces called iLeadLab have been developed at various learning support centres. The objective of the iLeadLab is to empower our learning community

through the development of 21st Century skills and competencies, innovation, interpersonal and work readiness skills, and commercialization of product development.

To mitigate the impact of the COVID-19 pandemic, REGENT has successfully harnessed the benefits of technology to seamlessly support teaching and learning online, thereby confirming the power of technology to enhance the delivery of our programmes in the digital age.

Your journey begins here, and only you can choose where it leads you. I trust that you will choose REGENT to pursue your formal higher education studies and to acquire employability and transferable skills. It will be our pleasure to partner with you on this important journey.

I look forward to welcoming you to REGENT BUSINESS SCHOOL.

AN OVERVIEW OF of **REGENT BUSINESS SCHOOL**

REGENT BUSINESS SCHOOL (RBS) is a Private Higher Education Institution located in the heart of the central business district and the industrial hub of Durban, one of the busiest port cities on the eastern seaboard of South Africa. RBS is deeply embedded as a premier private higher education provider in Africa, with fifty four burgeoning economies. The institution was established in 1998 with a mission to provide affordable and accessible education, resulting in a number of fully accredited world class programmes.

RBS prioritises quality education; incorporating 21st century learning in the teaching methodologies focused on producing holistic graduates. Strategic thinking and thought-provoking case studies exposes and equips students with a higher level of practical problem solving abilities. All modules are rigorously designed with industry input, an opening vignette to major events and real-world issues around the globe.

At the core of its institutional philosophy, RBS is about innovation and entrepreneurship. It is about nurturing and shaping leaders and entrepreneurs to have an impact in their context. At RBS, understanding today's important challenges that confront business and society, and discovering tomorrow's

interesting opportunities are at the heart of our teaching, learning, research and community engagement.

RBS's programmes cover the areas of business administration, commerce, management and leadership, entrepreneurship, local government, educational management and range from higher certificates to postgraduate programmes.

In delivering its range of management education programmes to a diverse body of students from both the Public and Private Sectors, RBS has developed significant capacity with regards to infrastructure, academic and intellectual resources. Access to a large pool of experts in Management and Leadership from commerce, industry and academia has positively impacted the delivery of its learning programmes.

Through its active research focus, RBS is also at the cutting edge of the latest business leadership and management trends. Academics at RBS hail from diverse multicultural backgrounds and are the finest industry players, who are engaged in cutting edge research, the pursuit of unparalleled academic excellence and innovation. They have conducted high impact research and published thought-provoking academic papers across a broad

range of business, industry and professional areas, working in and teaching at all levels of professional and industry platforms. Their contributions have made meaningful and concrete impact in the global community at large, at home and abroad.

RBS has developed a series of programmes that are designed to provide students and organisations with the management competencies and critical skills necessary to build and sustain competitive advantages in a rapidly changing and complex business environment. RBS's expertise has evolved through continuous research and development undertaken in delivering a range of local and international business and management education.

To date, RBS is proud to announce that it has successfully graduated in excess of 5000 graduates. The institution has

seen rapid growth in the number of students graduating annually. The escalation in graduation figures is a reflection of the extent of the success and sustainability of the institution through academic support and student centricity of the institution.

RBS continues to grow and build on its reputation as a leading provider for higher education in business and management. For prospective students this is indeed an exciting time as you lay the foundations for a career in the business world. At RBS we will do all that we can to help you to make the right choices for your future and a programme of study at RBS will give you the best possible start in your career.

ACADEMIC MAKERSPACES at **REGENT BUSINESS SCHOOL**

Today's pace of technological change is staggering, and the speed of current breakthroughs has no historical precedent. The growth in artificial intelligence (AI), robotics, autonomous vehicles, the Internet of Things (IoT), and nanotechnology has become the new norm of the Fourth Industrial Revolution (4IR) or the Digital Age.

The 4IR will be driven by four disruptions: the astonishing rise in data volumes, computational power, and connectivity; the emergence of analytics and business-intelligence capabilities; new forms of human-machine interaction such as touch interfaces and augmented-reality systems; and improvements in transferring digital instructions to the physical world, such as advanced robotics, Laser Cutting and 3-D printing. Preparing learners for success during the 4IR the notion of education has to change at scale.

Learners both at educational institutions and in industry will need to adapt and innovate in response to new demands and changing circumstances, in being able to command and expand the power of technology to create new knowledge. Hence, new standards for what students should be able to do are replacing the basic skill competencies and knowledge expectations of the past.

LASER CUTTING

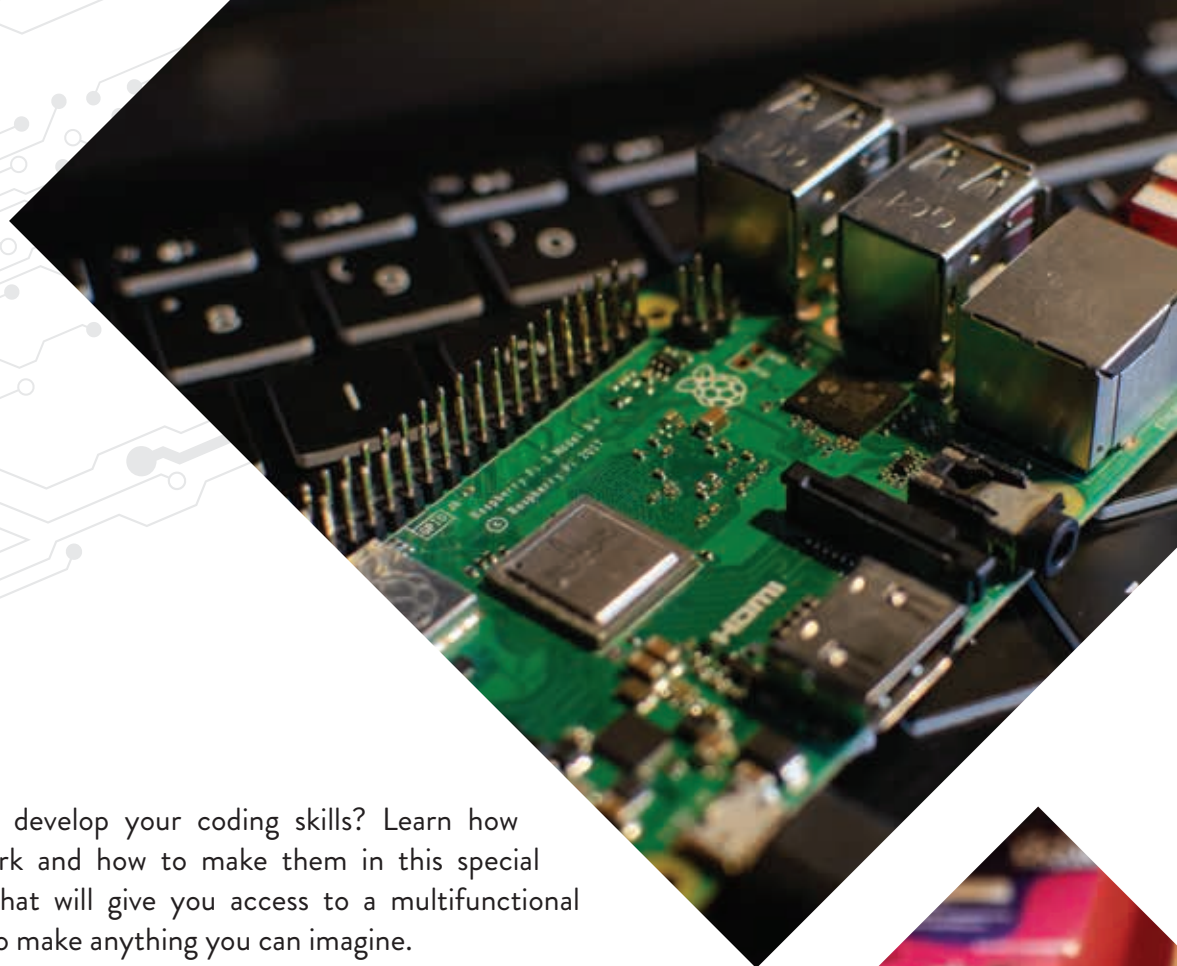

Imagine designing your own custom product with the power of laser cutting technology. In our interactive learning space, you will learn how a laser cutter works and how to use it to cut and etch while creating your own special product. Use paints, varnish or even etch your own art and design to personalise your puzzle.

3D PRINTING

Become a digital artisan and bring your ideas to life through 3D printing. Create products that are printed layer by layer with a model designed using 3D software.

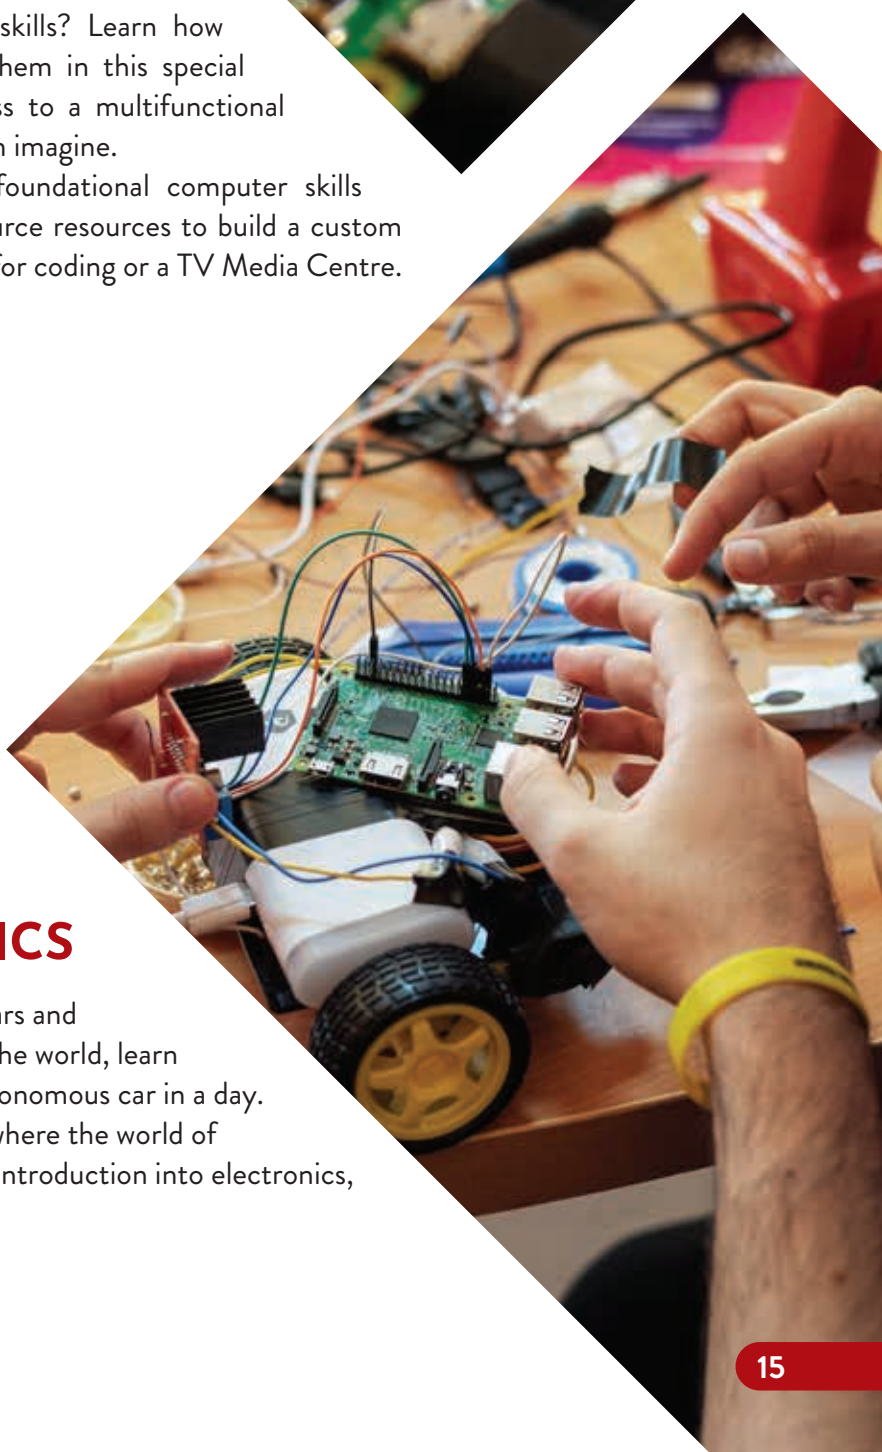

Experience this innovative technology and open up a world of possibilities.

CODING

Want to start or develop your coding skills? Learn how computers work and how to make them in this special workshop that will give you access to a multifunctional device to make anything you can imagine.

This course will give you foundational computer skills and how to use open-source resources to build a custom computer to be used for coding or a TV Media Centre.

ROBOTICS

Where self-driving cars and automation are ruling the world, learn how to make your own autonomous car in a day.

This workshop will teach you where the world of mobility is going and give you an introduction into electronics, coding, and automation.

AN OVERVIEW OF

REGENT Enterprise Development **HUB**

COVID-19, the global health crisis that has snatched lives, stolen livelihoods and crushed revenue streams has, ironically, birthed a new era for opportunity and innovation. Around the world, the entrepreneurial spirit is in full throttle, ripe for nurturing. If ever there was a time for innovative players to thrive, it is now.

As global economies reboot, analysts and forecasters believe that SMMEs (small, medium, and micro enterprises) with their pioneering and problem-solving philosophies, will play a pivotal role in shaping post-COVID-19 realities.

Indeed, there is a direct correlation between a country's economic trajectory and the level of its entrepreneurial activity. The World Bank's Small and Micro Enterprises (SME) report of 2019 highlighted that SMEs contribute up to 40% of the gross domestic product in Africa. Now, experts believe entrepreneurship is key to healing the continent's deep financial wounds inflicted by the global health crisis.

REGENT BUSINESS SCHOOL has made considerable investment to create an environment to support many facets of enterprise development. The REGENT Enterprise Development Hub (REDhub) leverages the business school's iLeadLABs or national technology hubs, and the continuous improvement initiatives to its knowledge-exchange practices, to champion entrepreneurial development, with the intention of contributing to sustainable economic recovery.

REDhub seeks to provide impactful entrepreneurial and enterprise development by nurturing resilient, homegrown ecosystems and breathing life into ideas and concepts to stimulate growth from a grassroots level.

Soft Skill Workshops:

THE REDhub APPROACH:

REDhub is anchored in entrepreneurship and enterprise development and is a niche business support and development facility that promotes technology focused entrepreneurship and new venture creation.

The main components of the REDhub initiative are:

- Entrepreneurship development
- Enterprise development
- Innovation
- Access to new markets for SMMEs
- Building collaborative networks of businesses

The focus will be on:

- Igniting the entrepreneurial thought process and passion in individuals
- mitigating against poor business strategy, and
- retraining (upskilling and reskilling) working adults.
